## SOFTWARE ENGINEER

A practical Software Developer with significant experience in project development, I have worked with various teams, ensuring a grounded and solution-oriented approach to my profession.

## CAREER SUMMARY

I am a passionate and eager first-year Software Engineering student. I continuously develop my technical skills and problem-solving abilities by working on projects in C# and Python. Additionally, I am enhancing my communication skills through language training, aiming to be more effective in an international environment. I enjoy creating projects independently, learning new technologies, and producing practical solutions to real-world problems. My goal is to build a solid foundation for my career by offering creative and innovative software solutions. I am a team player, responsible, and goal-oriented.
